

E-STREAMS

The leading resource for scientific reviews. Since 1998 E-STREAMS has been reviewing Science & Technology References covering Engineering, Agriculture, Medicine and Science.

E-STREAMS is a collaborative venture between Michael Fosmire, Purdue University Libraries, and YBP Library Services.

about the editor

Michael Fosmire, Head of the Physical Sciences, Engineering, and Technology Division of the Purdue University Libraries, is the editor of E-STREAMS, YBP's book review service covering Engineering, Agriculture, Medicine and Science titles. A reviewer for Choice and E-STREAMS in its early years, Michael has recently edited the Physics and General Science sections of the American Library Association Press' iconic Guide to Reference and the Physics section of their equally esteemed Resources for College Libraries. Michael has been on the editorial board of Issues in Science and Technology Librarianship, an open-access publication of the Science and Technology Section of the Association of College and Research Libraries. E-STREAMS offers Michael a chance to contribute to the success of another high-quality open-access publication. Michael has Master's degrees in both Physics and Library and Information Science, and has authored or co-authored over fifteen peer-reviewed scholarly articles on topics from scholarly communication, to information literacy, to the information seeking and utilization behavior of scientists.

YBP Library Services

editor

Michael Fosmire, Associate Professor of Library Science, Head, Physical Science, Engineering, and Technology Division

reviewed by

Librarians or professors who have expertise in the areas that they are reviewing.

reviews

Each issue contains 30+ STM reviews, covering new titles in Engineering, Agriculture, Medicine and Science. Each review is signed, and includes the email address of the reviewer. The reviews feature short TOCs, a list of contributors, and bibliographic information.

subscriptions

Every issue is available free of charge in HTML and PDF formats.
